DETAIL ACTION

Reasons For Allowance

1. Claims 5 and 10 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose a second transformer for converting a fixed AC voltage outputted from the inverting unit into a predetermined fixed voltage, wherein a high voltage transformer converts predetermined fixed voltage outputted from the second transformer into high DC voltage, and outputting the converted high DC voltage to the magnetron as required in claim 5 or the fixed AC voltage and the fixed oscillation current comprises converting inputted commercial AC power into DC power; detecting a rate of variability of voltage of the commercial AC power, and generating a voltage compensating signal for compensating the rate of variability of the voltage; converting the converted DC power into fixed AC power by varying a frequency of the converted DC power based on the voltage compensating signal; and converting the converted fixed AC power into predetermined fixed voltage and current, and applying the predetermined fixed voltage and current as converted to a filament of the magnetron as required in claim 10.
3. The remaining dependent claims are allowable for at least above reason.
4. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure. None of cited/recorded prior arts stands alone or combination with others discloses all limitation required in claim invention.

Remarks

Amendment filed December 12, 2005 has been entered.
